
Natural Shades

We use exclusive fabrics made from materials such as reeds, bamboo, and hemp.

This is a high-quality product that emphasizes a natural feel using natural ingredients.

Roman Shade Type

로만쉐이드 타입

In the Roman Shade method, the fabric of each layer is pulled up through the hook at the back of fabric.

It goes up by folding in layers, and conversely, unfolds from the top and goes down.

Roll-Up Type

롤업타입

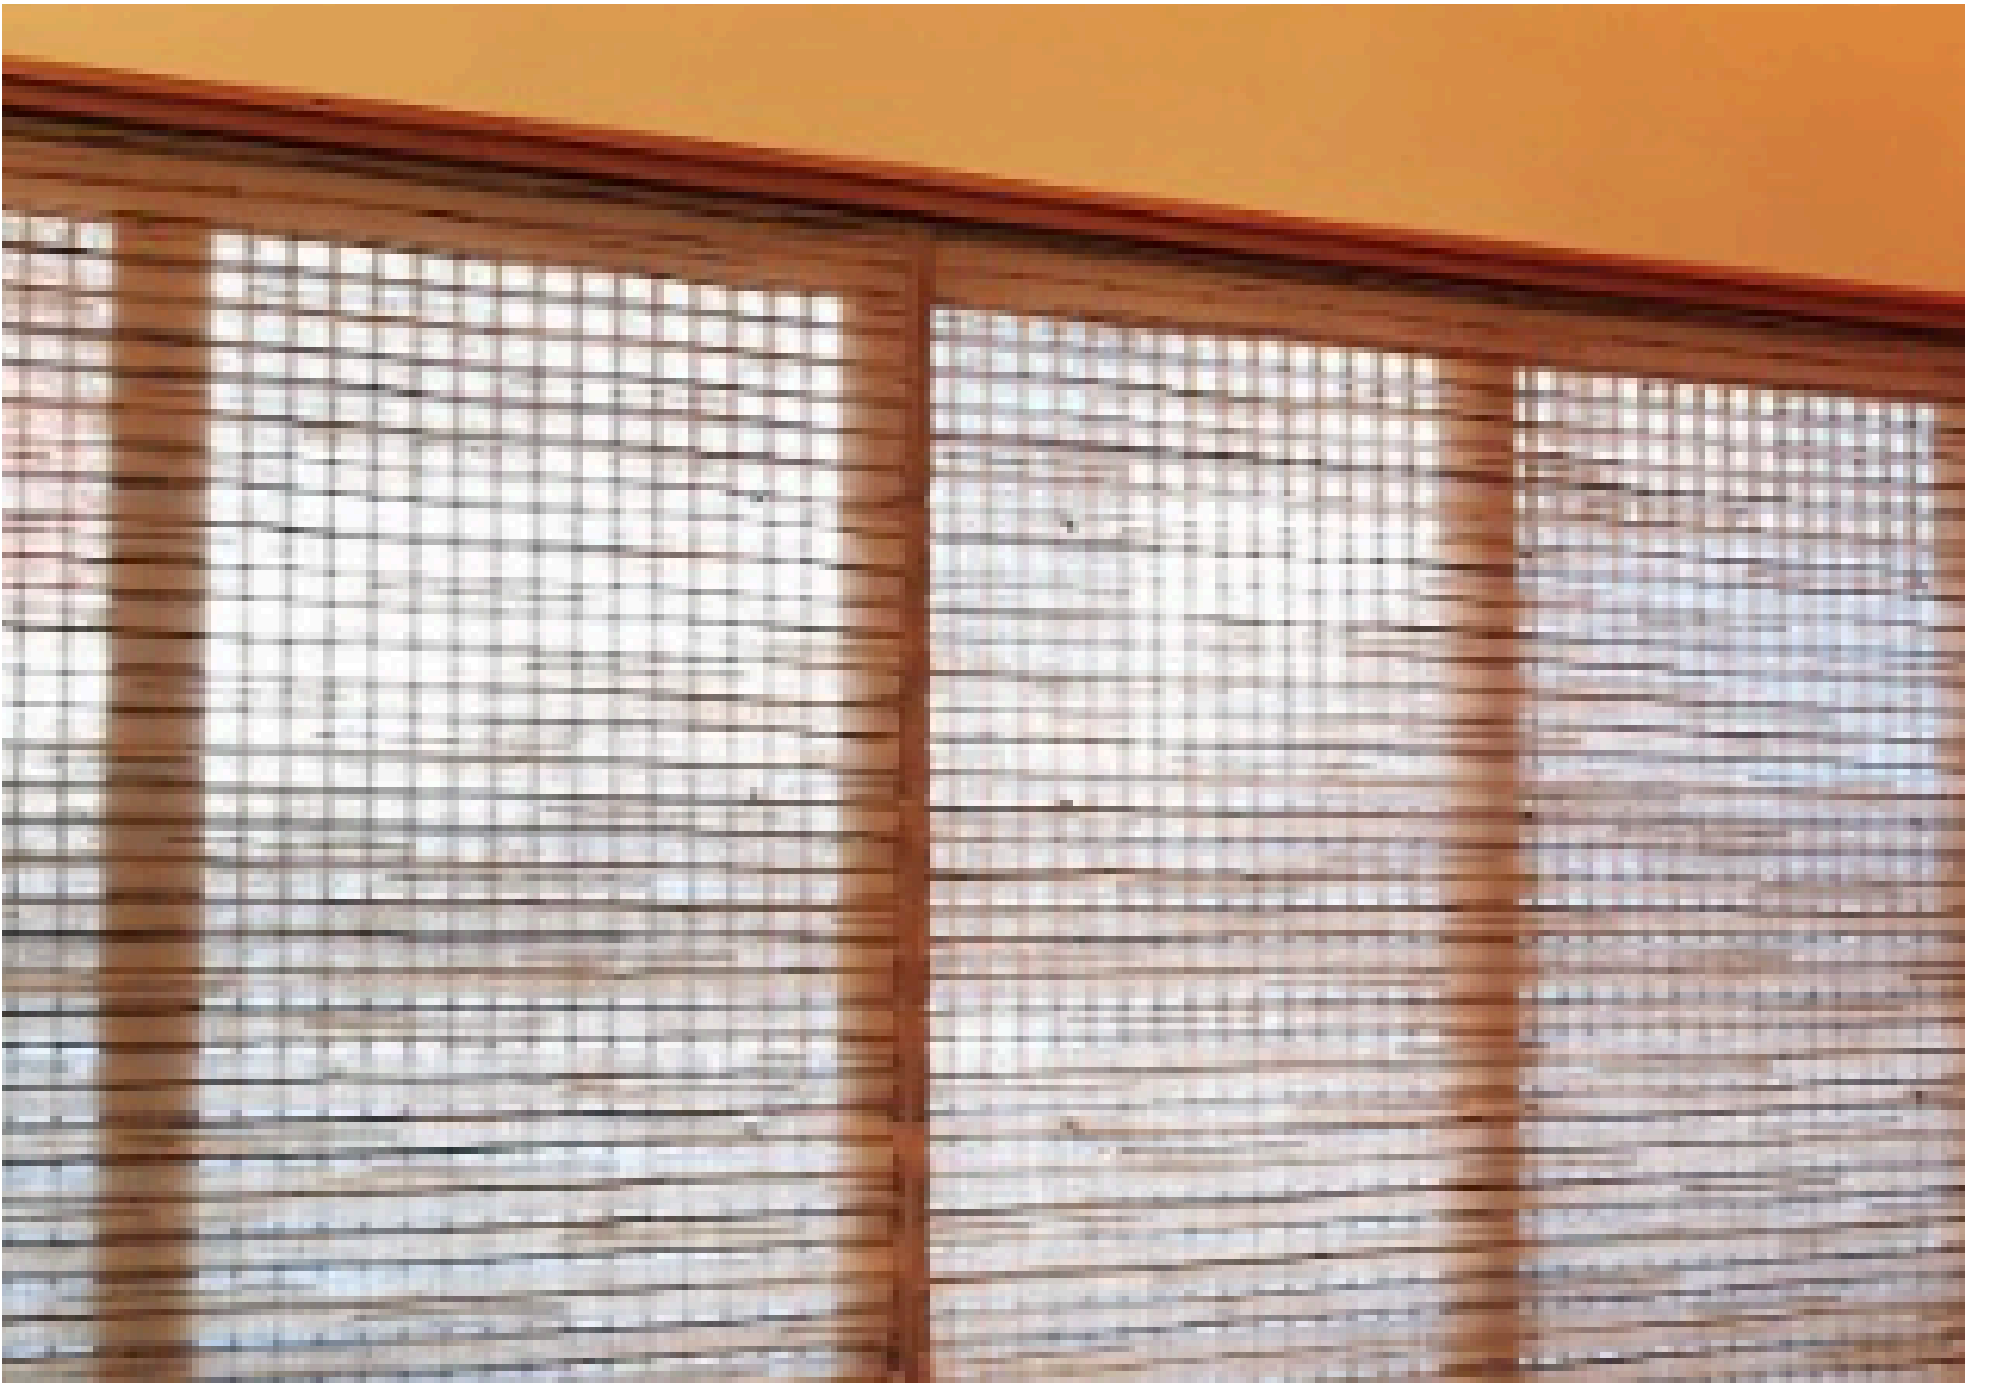

In the roll-up type, the bottom bar goes up by rolling the fabric, and conversely, the bottom bar goes down by unwinding the fabric.
