

Superior protection
for your home
S-ONE GLOBAL PTE LTD

A photograph of a modern building's exterior. The building features a light-colored facade with large windows covered by white zip blinds. A balcony with a white metal railing is visible on the upper level. In the foreground, there is a landscaped area with green plants and a white metal railing. The overall aesthetic is clean and contemporary.

Our Speciality

Premium outdoor motorized zip blinds systems for your beautiful homes.

Sleek Design for you

A perfect match for aesthetic. Our fully concealed and beautifully crafted frames, coated with a matte finish, blend seamlessly with your beautiful balcony.

^ No warping of screen
like that of brand X.

Built to last, strong & sturdy

Every screw and bolt is designed for heavy duty usage, and built to withstand Singapore's tropical weather. Our double layer weighted bottom bar gives the extra sturdiness that allows you to lower your curtains even during strong winds and heavy rain.

The weighted bottom bar eliminates the need for an unsightly rain guard. Combined with a seamless rubber seal, the chances of rain seeping into your home is greatly reduced.

Our Adjustable Bottom Bar will automatically adjust to seal the ground perfectly

Slanted Floor? No problem

Our double layer bottom bar makes automatic adjustments possible so that it can tilt to accommodate the slanted flooring meant for drainage.

The Smart Obstacle Detection system stops the curtain from lowering should it detects obstruction after 2 attempts.

This safety feature protects your curtain from jamming, prevents damages to your furniture and injury to children.

Safety at the forefront

Our Smart Obstacle Detection not only protects your furniture. It also stops the curtain from lowering in the case of extreme strong winds to prevent the curtain fabric from any damage.

Our cordless and gapless design also gives you a peace of mind when children play at the balcony.

UV proof

Insect proof

Anti-glare

Dust proof

Wind
resistant

Rain proof

One screen, packed with features

Along with our numerous features, topping them off would be our “one-way view” perk. Allowing you to enjoy your view without compromising your privacy.

Penthouse Ready

Our heavy duty seamless post can reach up to 4.9m tall, utilising only one single curtain screen – ensuring a sleek design for your beautiful home.

Excellent Craftmanship

Detailed in every aspect

We have spent years researching and developing the optimum product for you. As if constructing a luxury watch, every bolt, screw and wire have been thoughtfully assembled.

Our custom made aluminium extrusion die and anodizing profile designs ensure the perfect seal and complete protection against the forces of nature.

Ultimate protection for your home with our high quality sunscreens from Phifer SheerWeave®, made in USA.

Manufactured with high-grade aluminium parts, all moving parts and wires are protected within our sleek housing. Zipcurtain is coastal approved, ultra durable, and built to last.

Uncompromising quality

Our SheerWeave® screens from Phifer are curated for outdoor conditions. These fabrics maintain all of the established benefits of traditional vinyl such as durability, cleanability and fabric longevity.
